

Features List

IDC-4

12 January, 2006

Inductive Digital Controller (Model 4)

- Dimensions 4.3"x 2.8"x 1.1"
- 16-bit high performance processor
- Programmable, with manual governor potentiometers
- PC-Board assembly is suspended in soft polyurethane: superior vibration handling

IDC-4 Housing without label

Features

- **Low system cost (works w/O.E.M. sensors, throttle, coils, injectors)**
- **Ignition Timing Control (distributor or coil pack)**
- **Drive-by-wire governing (DC gear-motor throttle body)**
- **Gaseous fuel Air/Fuel Ratio Control**
- **Starter Relay Control (auto-start/starter lockout)**
- **Fuel lock/fuel pump control**
- **Over temp/oil pressure/over-speed shut down**
- **Manual governor trim potentiometers**

226 Terrace Drive, Mundelein, IL 60060
